

**Important notice regarding ICO  
mailing list subscriptions**

1. The Executive Director would like to inform ICO Members and observers about an ongoing technical issue with the Organization's mailing platform. Due to problems with certain recipient domains, some contacts have recently been erroneously unsubscribed from our mailing lists and are no longer receiving ICO communications.
2. She would like to assure Members and observers that the Secretariat is actively monitoring the situation in collaboration with a technical support team from the platform.
3. The Secretariat understands the importance of uninterrupted communication. Therefore, to ensure the timely dissemination of ICO-related information and documents and to mitigate any disruptions caused, a temporary Outlook mailing list will be created for the affected contacts. The Secretariat is also exploring alternative mailing platforms and will keep ICO Members and observers updated.
